About Gujarat Maritime Board - The Promoter

GMU
GUJARAT MARITIME UNIVERSITY
तमसो मा ज्योतिर्गमय

- Gujarat Maritime Board (GMB) is a statutory body set up by instituting the Gujarat Maritime Board Act, 1981.
- GMB's broad mandate is to regulate, operate and promote the non-major ports of Gujarat.
- GMB's visionary policies and farsighted initiatives have catapulted Gujarat to evolve as the torch-bearer of India's maritime growth saga.

The Maritime Brand of India

1. 1st Maritime Board of the Country
2. 1st to invite Private sector participation in Port sector
3. 1st to announce Port Policy (1995)
4. 1st Private Port of India at Pipavav
5. 1st 2 operating LNG Terminals of India at Dahej & Hazira
6. 1st dedicated Chemical Terminal of India at Dahej
7. 1st & largest port based Grassroot refinery of India at Sikka
8. "Cradle to Graveyard" concept for ships in Gujarat
9. Largest Multipurpose Private Port of India at Mundra
10. World's largest Ship Recycling Yard at Alang

Considering the fact that the demand for global seafarers is likely to increase drastically, Gujarat visualizes the setting up of a knowledge bank in close collaboration with Maritime Industry, academia and government. Inspired by the success of Pandit Deendayal Petroleum University, the state port sector is actively contemplating development of a Maritime University in Gujarat to meet the demand for skilled manpower for the maritime industry. The state port department has also tied up with one Gujarat based university to commence courses in Marine Engineering. Similarly, post graduate courses with specialization in maritime and shipping sectors are being promoted jointly with the Gujarat University.

- **Narendra Modi**
Quote of Hon'ble Prime Minister when he was the Hon'ble Chief Minister of Gujarat

We are envisioning the development of a World Class Maritime University to cater to the growing need for providing skilled manpower as well as to promote research and innovation in the maritime sector.

- **Vijay Rupani**
Hon'ble Chief Minister of Gujarat

Message from the President

I greet you with the happy tidings that Gujarat Maritime University is all set to commence its journey into maritime studies from the Academic Year 2019-20. We have been deliberating on the challenges of diversifying into skill development and we have come to the conclusion that with Gujarat being a frontrunner maritime state in the country, development of human capital for the maritime sector is the need of the hour if India has to be recognized as a maritime nation globally. Talking about the port sector scenario in Gujarat, the State is not just blessed with the country's long coastline, but we have been living and defending a rich maritime legacy. The 48 non-major ports regulated by Gujarat handles more than 30% of the total national cargo. We have the best in class port infrastructure in the State. Government of India has also taken proactive initiatives for development of the port sector. However, when it comes to maritime services, as a country, we have become a net importer of these services. Let me tell you why. Our focus till now has been more on creating world class ports and in the process, our country has established more than 130 institutes catering to maritime education. The concentration of the majority of these institutes, however, has been on technical education. Resultantly, the prospects of commercial education in this sector has remained largely unexplored unlike developed maritime countries.

This is where the Gujarat Maritime University will be a value differentiator. In the first phase, we plan to launch only commercial courses and later, in the second phase expand more and focus on the technical value chain. We are starting two post graduate courses, one in maritime law and the second in International Trade Law from this year from our transitory campus at Gujarat National Law University. We are also exploring possibilities of collaboration with global institutes of repute to start short term programs for working professionals and later expand into other areas of commercial maritime education in the first year of our launch.
I urge the youngsters to take advantage of these courses and explore the unlimited opportunities the maritime sector has to offer.

Dr. J. N. Singh, IAS
President, Gujarat Maritime University

Message from the Provost

When we talk about the port sector in India, the first name that comes to mind is Gujarat Maritime Board, which in the words of the Hon'ble Prime Minister is the Maritime Brand of India. Gujarat has been living and defending a rich maritime legacy and it is our effort to ensure that Gujarat remains a leader not just in port and port led development, but also in providing skilled professionals necessary for this sector to grow.

The Gujarat Maritime University is a step in this direction. We plan to start in the Academic Year 2019-2020 with two full time courses, one in Maritime Law and the second in International Trade Law. Law in the context of maritime sector is a niche area as trade that takes place in the sea or things that occur at sea are very different from the everyday laws as these matters also involve international regulations and policies. Very limited opportunities for skill development are available in the country for those who are keen to pursue a career in these subjects. Hence, in the first phase, we are establishing a School of Maritime Law, Policy & Administration where these two full time programs will be taught. Going forward, it shall be our endeavor to establish School of Maritime Management and School of Marine Technology, Centre of Executive Education and Continuing Education. You will find more details about these courses in this brochure.

I invite you to build a career in the maritime sector, opportunities of which have largely remained in the shadow as the sector in total has not been marketed. We will have eminent academics and industry stalwarts who will help you navigate your career to greater heights.

Shri Mukesh Kumar, IAS
Provost, Gujarat Maritime University

Stakeholders Speak

I congratulate the Government of Gujarat and the Gujarat Maritime Board for setting up the Gujarat Maritime University – the first in the state. I am confident that the university will provide unlimited opportunities in the maritime sector for the talented youth of Gujarat.

The Government of India has undertaken several proactive initiatives to realise the vast and untapped potential in the maritime sector. Being home to a number of world-class ports, and the largest coastline among the Indian states, Gujarat has the potential to spearhead India's transformation into a global maritime superpower.

In order to keep pace with the changing trends in the maritime industry, India has to focus on building a skilled and competent human capital. I therefore see the setting up of the Gujarat Maritime University as a game-changer. The university will be instrumental in reinforcing Gujarat's image as the leading state in Maritime infrastructure and trade. The youth of the country stands to gain immensely out of yet another laudable and proactive initiative by the Government of Gujarat.

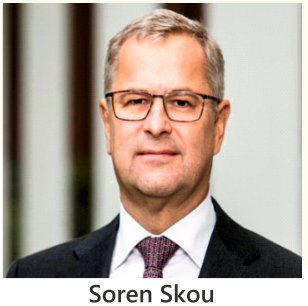
Mukesh Ambani
Chairman & MD, Reliance Industries

Investing in human capital will be the game changer in next few decades and Gujarat's timely intervention with the development of Gujarat Maritime University will help the State reap the benefits of its visionary thinking.

This initiative will ensure that trained students are taken on board which will in turn enhance India's competitiveness in the changing face of maritime industry across the globe. Such reactiveness grandly demonstrates the state's commitment and preparedness in developing the maritime sector which will go a long way in building tomorrow's maritime infrastructure.
I congratulate the Gujarat Maritime Board team on this wonderful and welcome initiative.

Gautam Adani
Chairman, Adani Group

Congratulation to the Gujarat Maritime Board Team. The opening of the Gujarat Maritime University is an investment into highly skilled work force for the logistics industry in India. An innovation and technology driven academic pursuit is an essential prerequisite to empower logistics professionals to drive growth and meet the needs of an Industry which is undergoing far reaching changes at an unprecedented pace.



Soren Skou
Chief Executive Officer, A. P. Moller-Maersk

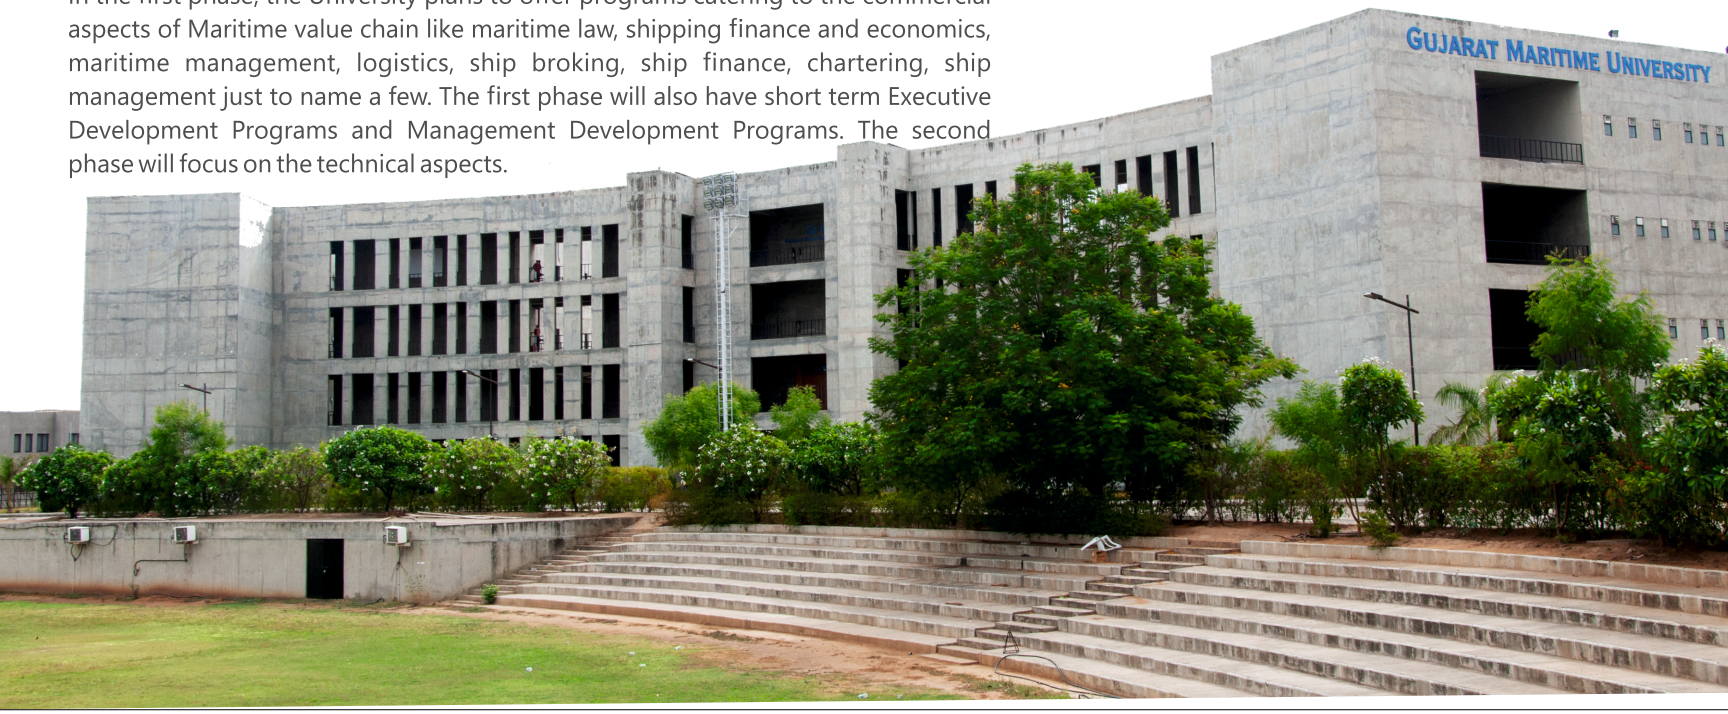
About Gujarat Maritime University – The Institution Par Excellence

GMU
GUJARAT MARITIME UNIVERSITY
तमसो मा ज्योतिर्गमय

The Indian Maritime sector has been consistently exhibiting strong growth and is slated to be the maritime market of the future. The establishment of Gujarat Maritime University (GMU) is an endeavour by the Gujarat Maritime Board to provide a fillip to this growth by bridging the knowledge gap within the industry.

Gujarat Maritime University has been established under the Gujarat Private Universities Act, 2009. The prime objective of Gujarat Maritime University is to be a global center of excellence in maritime education, research and development, professional training and it aims to enhance and increase the human capital and capacity of maritime industry both in India and across the globe. The aspiration is to serve the global maritime community by producing educated and well trained professionals in the maritime domain.

In the first phase, the University plans to offer programs catering to the commercial aspects of Maritime value chain like maritime law, shipping finance and economics, maritime management, logistics, ship broking, ship finance, chartering, ship management just to name a few. The first phase will also have short term Executive Development Programs and Management Development Programs. The second phase will focus on the technical aspects.

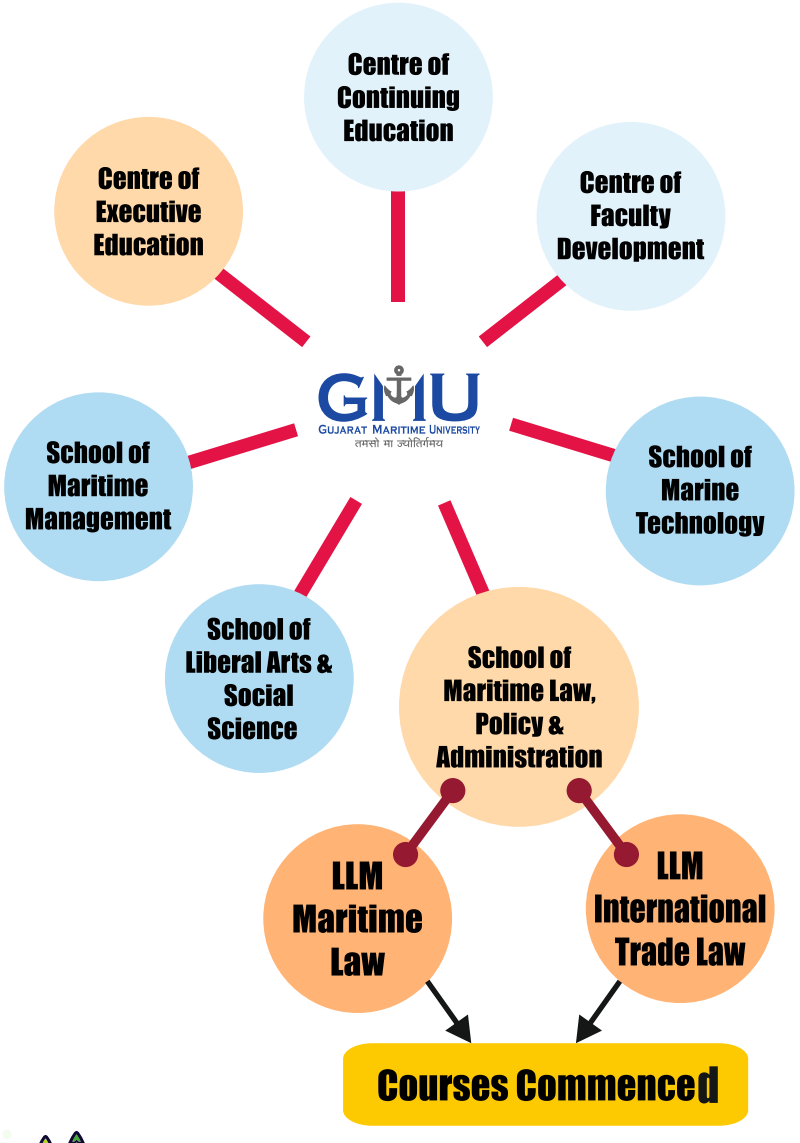


About Gujarat Maritime University

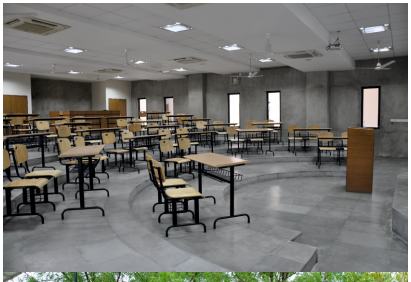
To be a global center of excellence in maritime education, research and development, professional training with an aim to enhance the capacity of maritime industry both in India and across the globe

- To provide world class education focused on areas across the value chain of the maritime industry
- To empower students to excel in global maritime industry through an interdisciplinary approach to learning
- To address the challenges of the industry and encourage innovation through cutting-edge research and collaboration with industry
- To serve the global maritime community by producing educated and well trained individuals

Blue Print of the University



Admissions and Fees



One Time Fee

Addmission Fee	Rs. 2,000/-
General Security Deposit	Rs. 10,000/-

Total Annual Fees (Incl. Mess Charges)

For Indian Nationals - LLM Professional	Rs. 120,000/-
For Indian Nationals - LLM General	Rs. 180,000/-
For NRI & Foreign Nationals	Rs. 110,000/- + USD 4000

* GMU holds the right to amend the fees structure without any prior notice

Admissions to LLM with global externship

Eligibility Criteria :
LL.B degree/equivalent degree in Law from a recognized University, with at least 55% marks (50% in case of SC/ST students)

Admission Process :
On the basis of CLAT

Admissions to Post Graduate Diploma

Eligibility Criteria :
Graduation degree from a recognized University

Selection process :

- Application form scanning.
- Motivation Letter which should specify why their application should be considered and how will the course be useful to them in career advancement.
